

Bridle Chart for the Premium range

Jeffries has produced a Bridle Component size chart to help you select a bridle that will fit your horse correctly. The Premium ranges can be purchased as a complete bridle, or in component parts to suit each discipline.

A correct fitting bridle is vital to maximise the horse's performance. The bridle should not be too tight and should riders wish to change bits, alternative cheek-pieces are available. The Premium range of bridles are made from high quality English leather and offer excellent value for money.

		Pony	Cob	Full	E/Full
Headpiece					
Overall incl throat latch	A	40"	44"	46"	50"
